BOOTSTRAP
WORDPRESS

♥ PERSONAL SKILLS AND WHAT I LOVE

I love all the technology and online world. I'm always willing to learn new working tools, both software and hardware. I'm used to cloud chat and project management softwares such as Slack and Asana.

I have excellent writing and fast typing skills.

I'm passionate about tech, video games, comics, woodworking, art, fencing and fitness.

And all the nerd world, too!

I'm a Web & Graphic Designer, experienced in GUI design for Web projects and applications. I also like printing preparation graphic and online graphic, such as social media elements and posts.

My main softwares are Adobe Photoshop and Illustrator for design and Github Atom for HTML/SASS coding.

I love Bootstrap and Wordpress.

THANKS FOR YOUR TIME
